

EMR IKA feature | Activity sheet

Design by Ray Downing

Using many different methods of research (e.g. internet, library books), answer the questions below about the Crested Weedfish:

What is the scientific name for the Crested Weedfish?

Where do they live?

Name a Rimurimu/seaweed type they live in?

In what two ways do they mimic the kelp?

- 1.
- 2.

What do they eat?

What is a key threat to the Crested Weedfish?

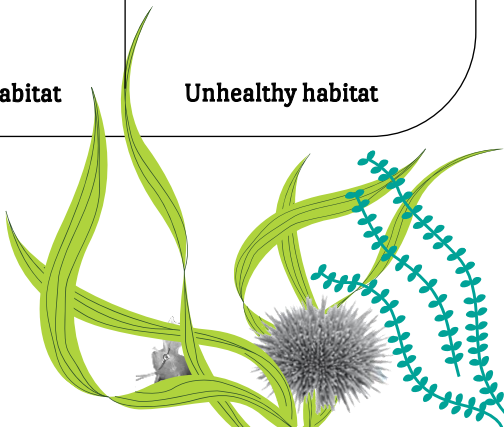

What can you do to raise awareness of the importance of the Crested Weedfish's habitat?

What actions will you take?

Draw a diagram of a Crested Weedfish and label as many features as you can:

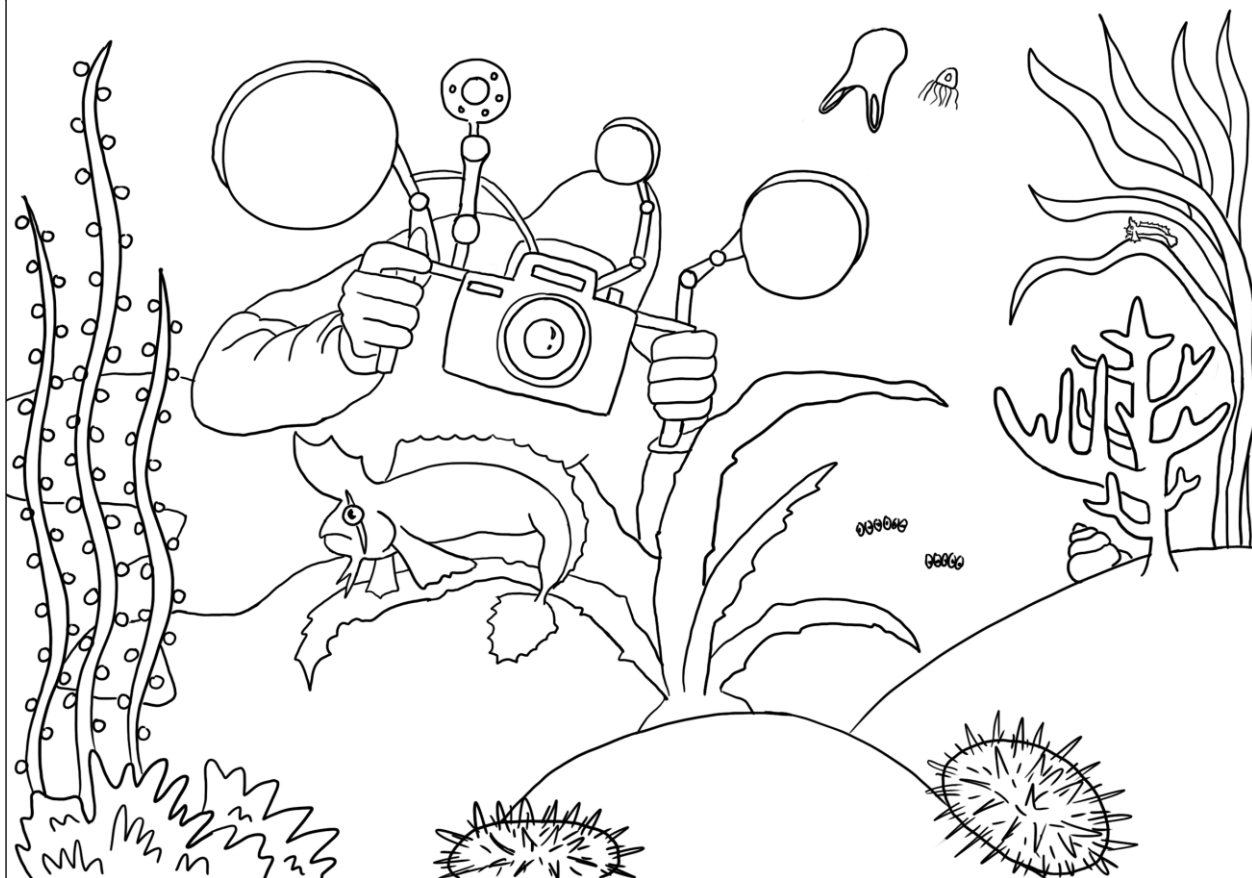

Draw a healthy and unhealthy habitat for the Crested Weedfish (key info here at <https://loadingdocs.net/theweefish/>).

Healthy habitat	Unhealthy habitat
-----------------	-------------------

Spot the difference | Activity sheet

Circle all 6 differences between these two underwater scenes. Can you find them all?

Artwork by Sophie Journee

If you are feeling creative you can also colour in the images and add your own marine critters.
