

Theory of Change

Activities	Outputs	Outcomes
<p>Structured, evidence based programmes</p> <p>Emergent/community led programmes <i>These are programmes and projects which are the result of community commitment and action, and are supported by our teams</i></p> <p>Conservation actions and interventions</p> <p>Partnerships and collaborations</p>	<p>Branded programmes with standardized frameworks are scaled up to be delivered in different regions</p> <p>Communities initiate and commit to programmes and projects with support from our team</p> <p>New conservation actions and interventions are initiated by the team</p> <p><i>Our teams support and participates in a range of initiatives with other cross sector organisations.</i></p>	<p>Communities who participate in our programmes are empowered with support, knowledge, resources; are inspired, and feel valued; and have the capability to be fully engaged with papatuanuku and tangaroa now and in the future</p> <p>The environment of Aotearoa is in balance and has cool, clean, clear, connected waterways with healthy biodiversity and ecosystems</p>

Underlying Assumption:

Whakamana te maunga, Whakamana te wai, He mauri o ngā tangata, Ngā mea katoa he pai
If we look after the water from the mountains to sea, it will look after us. it is our life force.

Indicators of success: (what would it look like if each of the outputs and outcomes was successful)

	Quantity	Quality
<i>Effort</i>	<p>Number of people participating in programmes has increased</p> <p>Community and organisation continue to initiate activities and programmes</p> <p>Team initiate new programmes and projects</p>	<p>Branded programmes meet quality standards</p> <p>Uptake of branded programmes increases across Aotearoa</p> <p>Media profile the work of MTSCCT</p> <p>People are reporting a positive experience in feedback</p> <p>Quality improvement or horizontal learning is in place</p>
<i>Impact</i>	<p>Community initiated programmes continue after MTSCCT support finishes</p> <p>Number of participants and volunteers has increased.</p> <p>Number of participants that then become volunteers has increased</p> <p>Partnerships, and collaborations are in place</p>	<p>Participants provide stories and provide feedback that demonstrates personal transformation</p> <p>Participants identify changes in skills, knowledge and confidence as a result of participating in programmes</p> <p>Research is sourced that demonstrates the connection between programmes and ecological outcomes</p>
